

CATALOGUE 2021

ABOUT US

For over 20 years the Koala Auto Kare range of automotive and industrial cleaners has been purchased for its high performance and economical costs. The products are sold through a variety of outlets across Australia and relied on by professionals and general users alike.

Koala Auto Kare 'Blu Murda' Truck Wash has become a brand with a huge loyal following because of its great performance, over decades.

Our hand cleaner range, developed in house with modern 'green' cleaners, Vitamin E and Macadamia Oil, is without doubt one of the best hand cleaners in the Australian market and offers great cleaning power, good skin conditioning and is nicely fragranced. Along with our famous hand cleaners and "Blu Murda" truck wash, our catalogue offers a range of high quality cleaning, conditioning and detailing products, including automotive washes, degreasers, commercial and domestic cleaners, protectants, solvents, additives, air fresheners, aerosols and wipes.

We are also proud to present our Online Ordering Platform for Koala Auto Kare customers. This platform allows Koala Auto Kare customers to log in, view their account and place orders easily under their own profile. Go to www.koalakare.com.au to register for wholesale ordering. For any enquiries or assistance, email koalakare@auschem.com

This catalogue also highlights the QAT (Quality Auto Treatment) coolant and speciality automotive consumable range. Specialising in coolants, fuel treatments, engine flushes and brake fluids, QAT products provide workshops with high quality speciality automotive solutions, that are tried, tested and accredited. For further information on our QAT range, you can email sales@auschem.com

Both Quality Auto Treatments and Koala Auto Kare are owned by Austech Chemicals Pty Ltd.

We look forward to servicing your requirements and assisting with technical information in any way possible. We also thank you for your continued support of a true Australian brand.

To request an account application or send a Koala Auto Kare purchase order, email koalakare@auschem.com

Koala Auto Kare products are used in:

- **Automotive** • **Agriculture** • **Marine**
- **Cleaning and Janitorial** • **Construction** • **Industrial**
- **Mining and Oil**

DEGREASERS

HIGHLY CONCENTRATED DEGREASER

- Highly concentrated
- Non-flammable, water-based
- Fully biodegradable
- May be stored indefinitely
- Inhibits ferrous metal corrosion
- Exhibits excellent detergency
- Solubilises grease, oil, fat and waxes
- Tackles grease in the presence of high grime loadings
- Pleasant to use, no strong solvent vapours
- Suitable for spray, foam or brush application
- Will not affect plastics, rubber or unreactive metals
- Free from harmful petroleum solvents, aromatic compounds and corrosive alkalis
- Water miscible for greater economy and convenience
- Effective at high dilution levels

ABOUT QAT

Quality Auto Treatments is a specialist automotive chemicals brand, that provides speciality automotive consumables including coolants, brake fluids, fuel treatments, engine oil flushes, radiator flushes, aerosol cleaners and more!

QAT has been trading and proudly Australian owned since 1993.

Austech Chemicals is constantly investing in engineering of new products, using the latest chemical technology. All of our QAT products meet regulatory specifications and are industry standard in performance and compliance.

Austech Chemicals takes pride in the quality and performance of our speciality automotive products, which we are proud to provide through our QAT brand.

The following spread highlights the QAT range and its core product profiles. For more information on QAT products or any of our specialty automotive chemicals, email sales@auschem.com or call 07 3204 8511.

COOLANTS

V2001 LONG LIFE ORGANIC (OAT) - TYPE A

V2001 is a premium quality ethylene glycol based anti-boil/anti-freeze long life coolant. V2001 is formulated with latest organic acid inhibition technology. Contains no harmful amines, phosphates, nitrites or silicate. Service life is 300,000kms / 3 years, up to 500,000 kms / 6000 hours in a heavy duty diesel system.

AVAILABLE IN: 1L | 5L | 20L | 200L | IBC

V2000 LONG LIFE CONVENTIONAL - TYPE A

V2000 anti-boil/anti-freeze coolant is specifically designed to meet GMH material specification HN 2043. V2000 is a ethylene glycol coolant containing a blend of corrosion inhibitors, including borates, phosphates and silicates. It is nitrate and amine free. For optimum results, drain and flush cooling system every 12 months or 20,000kms.

AVAILABLE IN: 1L | 5L | 20L | 200L | IBC

RCI 2001 COOLANT - TYPE B

RCI 2001 is a type B concentrated cooling system treatment designed for superior aluminium protection. Formulated using latest organic acid technology. Service life of 3 years / 100,000kms.

AVAILABLE IN: 500ml | 5L | 20L | 200L | IBC

Q GUARD COOLANT - TYPE B

Q guard is a type B coolant, suitable for aluminium or conventional radiators. Protects against cavitation and electrolysis. Reduces build up of scale and sludge. 500ml treats 10L of water.

AVAILABLE IN: 500ml | 5L | 20L | 200L | IBC

SPECIALITY PRODUCTS

BRAKE FLUIDS

QAT Brake Fluids are high performance polyglycol synthetic brake fluids suitable for Australian, European, Asian, Japanese & American vehicles. Ideal for both passenger and commercial vehicles including ABS systems. QAT Brake Fluids have high temperature resistance and low moisture absorption providing superior boiling point and high vapour lock temperature throughout its service life. DOT 3, 4, SUPER DOT 4 AND DOT 5.1 are available. Conforms to Australian Standard AS 1960.1.

AVAILABLE IN: 500ml | 5L | 20L | 200L | IBC

LUBEX- PENETRATING LUBRICATING OIL

Lubex is a superior quality lubricant and penetrant designed for use by engineers, mechanics, maintenance personnel as well as in the home or workshop. Lubex ensures effective penetration of corroded parts to allow easy extraction, Ideal for automotive, industrial and household applications. Available in both liquid and aerosol form.

AVAILABLE IN: 400G Aerosol | 5L | 20L | 200L | IBC

Q FIRE - FUEL TREATMENT

Q Fire is an extremely effective detergent based fuel injector cleaner and fuel treatment suitable for diesel and petrol engines. It contains no hydrocarbons, is non corrosive and non flammable. Q Fire removes carbon build-up from pistons and valves and lubricates the system. Added ingredients promote moisture reduction in fuel and de-scaling in fuel tanks and lines. Q Fire incorporates an active biocide ingredient.

AVAILABLE IN: 350ml | 20L | 200L | IBC

Q FLUSH - ENGINE OIL FLUSH

Q Flush is formulated to effectively clean, dissolve and remove harmful deposits, sludge build up and varnish before an oil change. Oil deteriorates in quality and performance over its service life which accelerates the build up of contaminants. Use of Q Flush prior to oil change will see benefits such as improved engine compression, longer oil life, reduced oil consumption, increased engine efficiency and less oil oxidization.

AVAILABLE IN: 350ml | 20L | 200L | IBC

RADIATOR FLUSH

QAT Radiator Flush is a concentrated cooling system cleaner and de-scaler. Highly effective in removing oil, grease, sludge, scale and other impurities in cooling systems. Ideal for use when changing coolants to a fresh new refill.

AVAILABLE IN: 500ml | 20L | 200L | IBC

For any enquiries regarding QAT products, email sales@auschem.com
