GFB **Industrial Tough** Bits are manufactured with a unique process whereby the steel is tempered twice under high intensity heat, which makes the bits stronger and last longer. GFB Driver bits undergo a **more vigorous testing** as opposed to other brands – more numerous spot checks means better quality control. GFB screwdriver bits are manufactured to the highest specifications as required by top-line industries such as **Aviation, Solar Panel and Security**.

- Industrial Tough
- Unique Tempering Process
- Lasts longer
- Manufactured to the Highest Specifications
- Used in Top-Line Industries

Testing 'Industrial Tough'

GFB Torque Testing against Competitor Brands

GFB drill bits are regularly tested against competitor products. GFB use a Torqueleader testing kit which measures the level of Torque (in Newton Meters) at which a drill bit fails. In our tests, GFB typically out performs the two closest competitor products.

Note that this was not conducted in laboratory conditions – it is an internal testing procedure.

GFB Flexible Angle Drivers are excellent for when space is limited. The flexible shaft can bend up to 90 degrees. The attachment measures only 46mm enabling it to fit in tight spaces. This is ideal for 2.4 Volt to 18 Volt cordless drills.

- 90 Degrees Flexible Shaft
- Designed for working in tight spaces
- Quick Release Bit Holder
- 300mm shaft enables extended reach
- Robust Metal Housing
- Right or Left Gripping Handle
- Steel Gears

GFB Nutsetters

GFB **Industrial Tough** Nutsetters are specially designed & manufactured to Australian conditions. Rare earth magnets have been used, which means that they are stronger and last longer than standard magnets. GFB nutsetters have a registered design incorporating an anti shock cushion to combat vibration and preserve the integrity of the magnet.

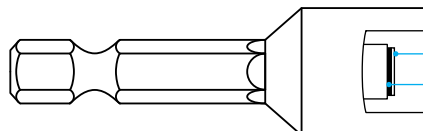

- Industrial Tough
- Rare Earth Magnets
- Anti Shock Cushion – Combats Vibration
- Manufactured to the Highest Specifications
- Used in Top-Line Industries

Compressors

GFB's **Direct Drive Air Compressors** are engineered for absolute strength, toughness and durability. The choice of direct drive compressors is for trade use where only an intermittent but reliable source of compressed air may be needed.

- 10 Amp 240 Volt
- Direct drive motor-compressor unit
- Nitto style fittings
- Regulated outlet
- Overload protection
- 12 month warranty
