

Innovation, simplicity, and savings to
improve your daily work

E-ZEE10/200VSD

MASTER Q

Simple ensures high performance and energy efficiency. Compared to a traditional compressor of the same power, Simple guarantees greater air output. Furthermore, thanks to the IE4 electric motor (Super Premium efficiency), you can benefit from a significant reduction in energy consumption.

Its compact size and the possibility of using smaller tanks allow Simple to install even in small spaces. Its intuitive design, plug-and-play installation, easy use, and easy access to internal components for maintenance simplify your daily work.

Simple can cover a wide range of applications. The two models Simple 5 and Simple 9, available on a base or tank, provide compressed air (FAD) up to 500 l/min and up to 900 l/min. Two solutions to meet demands up to 10HP. Let Simple offer you the ideal solution for every application, continuous or intermittent.

MODEL CODE	DESCRIPTION	PPRESSURE	CAPACITY FAD		MOTOR POWER		TANK SIZE	ELECTRICAL	NOISE
		Bar	m3/h	l/min	HP	kW	L	Volt/ph/Hz	db(A)
E-ZEE10/200VSD	SIMPLE 9 10 400/50 200 CE	10	50.9	848	10	7.5	200	400/3/50	63

MODEL	DIMENSION (mm)			WEIGHT
	LENGTH	WIDTH	HEIGHT	Kg
WITH 200L TANK	1440	615	1320	153

Capacity FAD: Unit performance measured according to ISO 1217 ed. 4 2009, annex E
Noise level measured according to ISO 2151 2004

CARE

Care is what service is all about: professional service by knowledgeable people, using high-quality original parts.

TRUST

Trust is earned by delivering on our promises of reliable, uninterrupted performance and long equipment lifetime.

EFFICIENCY

Equipment efficiency is ensured by regular maintenance. Efficiency of the service organization is how Original Parts and Service make the difference.
